SUMMARY

Recent graduate and aspiring MERN Stack Developer with Frontend and backend a solid foundation in MongoDB, Express.js, React, and Node.js. Passionate about building responsive and user-friendly web applications. Eager to apply skills in developing RESTful APIs, implementing authentication, and integrating third-party services to contribute to a dynamic development team.

PROFESSIONAL EXPERIENCE

- ❖ **PreDrag System LLP (Software Intern)** [Feb'23 – July'23]
 - Assisting in the design and development of user interfaces for web applications.
 - Writing clean, efficient, and maintainable HTML, CSS, and JavaScript code and design components.
 - Learning and implementing best practices in UI/UX design and development.
 - Assisting with troubleshooting and debugging issues.
 - Keeping up-to-date with the latest trends and technologies in UI development.
 - Prepare Report of developing project and other documentation to assist developer team.
 - Contributing ideas and suggestions for enhancing product functionality and design.
- ❖ **PreDrag System LLP (Jr. UI Developer)** [Aug '23 – till Date]
 - Maintaining Parent and Child elements by using State and Props in React JS
 - Writing clean, efficient, and maintainable HTML, CSS, and JavaScript code and design components.
 - The front-end use HTML5, CSS3, React JS, jQuery and Bootstrap to build a single page web app that communicate with back- end via RESTful API.
 - Integrating third party React libraries, and handling/creating Redux store data.
 - Worked with Node Packet Manager, MongoDB and used React JS library functions for the logical implementation part at client side for all the application.
 - Implemented generating the verification hash code using Node JS and added user validations and user permissions by using Node JS.
 - Created React JS for reusable components (multi-field form elements), background file uploads for Company project.
 - Manually test react components and check system performance.

TECHNICAL SKILLS

UI Web Technologies: HTML/HTML5, CSS/CSS3, XML, JavaScript, ES6, DOM, BOM, AJAX, jQuery, WordPress, Typescript, JSON, Bootstrap, Angular JS, React.js, Express JS, Node.js.

Databases: MySQL, MongoDB, SQL.

Version Controls: Git, GitHub.

Frontend Frameworks: ReactJS, Angular TS, Node JS.

Backend: Nodejs, RESTFulAPIs, SQL.

Languages: C, JavaScript, Typescript, Php.

Operating System: Windows/Linux

Methodologies: Agile, Waterfall.

EDUCATION

EDUCATION	COLLEGE	PERCENTAGE
CSE [B.Tech]	MGM's College of Engineering, Nanded	CGPA:7.54 2023
HSC [State Board]	NES Science College, Nanded	63.08% 2018
SSC [State Board]	Priyadarshani Vidyasankul, Nanded	81.40% 2016

PERSONAL PROJECTS

❖ iChat Application

In this application real-time messaging with **MERN, Socket.io, CSS**. Features **JWT authentication**, online status, **state management**, **API** error handling, deployment. Seamlessly connect, collaborate, communicate.

❖ Notes App

In this Application user can set reminder notes for tasks for making this application I use **React** for **front-end** use **NodeJS** for **backend** and for designing use **tailwind CSS, Rest API, MongoDB** for database

❖ Interactive CodeEditor

In this application real-time messaging with **MERN, Socket.io, CSS**. Features **JWT authentication**, online status, **state management**, **API** error handling, deployment. Seamlessly connect, collaborate, communicate.

ACHIEVEMENTS

❖ Certificate in C programming (IIT.Bombayx) [March '20 – Dec'20]

In this Certification I learn about Programming basics and the fundamentals of C such as Loops, Function, Arrays, Recursions, Error handling, Basic Data Structures. And Scoping and Standard Way of writing Code.

❖ Associate in python programming Certificate (Infosys). [March '22 – April '22]

In this Certification code I learn many things along with Python Programming Such as **Software Development Life Cycles**, Structured Query Language **[SQL]** , **Database Management System**, And **Error handling**, Some part of web development Such as HTML5 CSS JavaScript.
